Dear Harold,

Enclosed are the three unreported cases which deal with the right to an evidentiary hearing. They are very much on point. Having read them, I conclude that the Court of Criminal Appeals will in all liklihood grant Ray his evidentiary hearing.

When I came in this morning Bob had just finished reading Sprague's current article in Computers. He was very much upset by it and both of us will be meeting with Bud to urge a disavowal of it. With almost unerring accuracy, Sprague has managed, among other things, to list as "secret documents" precisely those CDs which were declassified last year.

I assume you saw the item in the paper yesterday about the verdict from the West Coast on the charges leveled by Barbara Warner Blehr and Harper.

Best regards,

Jim
